

ISSA CHAMPIONSHIP REGATTA ROTATIONS

ISSA National Championships are rotated through the seven districts. The Mallory and Baker regattas are rotated in an attempt to equalize travel costs and a predictable cycle of assignments. The Cressy rotation follows the college (ICSA) schedule since ISSA shares a fleet of Lasers provided by Laser-Performance with ICSA. The composite schedule taxes no district with more than one national championship in any school year. Cressy regattas are dates for the school year and sailed in the previous fall and are usually within a week of the collegiate singlehanded championship.
